

COVID-19 update as of Feb. 12, 2021

As of Feb. 10, 2021, all residential construction projects and related construction activities and services, including residential renovations across Ontario, are allowed to commence and continue.

This also applies to residential construction in public health unit regions in a Shutdown Zone and in public health unit regions that are subject to the COVID-19 Response Framework.

Restrictions on non-residential activities are still in effect in public health unit regions in a Shutdown Zone.

Once a public health unit region has been moved to the COVID-19 Response Framework, there will be no restrictions on construction activities.

Amendments have been made to O. Reg 82/20: Rules for Areas in Stage 1 under the *Reopening Ontario (A Flexible Response to COVID-19) Act* and can be found here:
